Subject: Aztecs, Tenochtitlan

Dear brothers Gentling ...

I just returned from a visit to the Houston Museum of Natural Science where I was blown away by the huge mural of Tenochtitlan. I have always been a fan of the Diego Rivera mural, which I presumed was the most accurate and moving visual depiction of the old city. I was hoping to find a copy on the Internet, but can't even find mention of it. However a quick Google search reveals that you have apparently created dozens of drawings and models of Tenochtitlan and surrounding cities from the pre-conquest era.

I would like to know if any of your art from this era is available for viewing:

- on the Internet
- in person at museums/galleries, other than the one I stumbled across in Houston
- in books or other media

I will be passing through the Metroplex shortly and could visit then. I'm curious if any pieces are still over in Lubbock?

Awesome work!

Yours truly,
Henry Fiddler
