Subject: Tenochtitlan Status

Importance: High

Hi Scott/Stuart:

Just an update; I've been made corrections to the Templo Major Thlalloc Temple and have finished the small ornate temple by the Centeotl Temple (God of the Flowers..can't remember the Nahuatl name). I'll also add the small platform and banner in the Nahui Ollin temple because you could see it clearly from a distance. I'll forward the views my next e-mail. I'll try to get a disc to Bob Smith so you guys can have the files to directly print the views for your use. I'll alert you when I send it.

I know we discussed the last time we spoke that you're preparing to ship the Zoo Model. I just wanted you to know that I'll be on vacation from 6/04/05 to 6/11/05. You can ship it direct to me at my office after that date if you don't get to it this next week.

Have a great Memorial Day Weekend.

Warm Regards;

Cliff
