Dear Stuart and Scott,

Not only do my husband Frank and I appreciate your sharing your most interesting studio with kindred way and those of us invited to attend last Tuesday evening, but then your gift "Of Birds and Texas" to each of us was a wonderfully generous gesture. Thank you very, very much!

I have felt a link with you ever since two of your early Mayfest bird pictures found places in our children's rooms as they grew up. But then a more personal connection is the Artists Proof of your picture "Shelter", Stuart, which you gave to John Fleming years ago and which he in turn gave to me in some appreciative moment.

all of which makes Frank and me very grateful that you let us see and be a part of this past work of your acclaimed lines.

Sincerely, Louise Carvey
