

Dear Stuart and Scott

AT LAST Home - to think back with highest delight at our happy, happy times with you - and with greatest ~~pleasure~~ gratitude for your sheer generosity of both time and things - beautiful things, to have and to hold for all ways. That wonderful book with its fantastical birds and colors, except they are real and not fantasy - your vibrant miniature of Mozart [I have sent you a book which I pray you will like] the magnificent Humbergs and then the Aztec oeuvre of wonderment, like the Jendofarne Gospels (have you seen them?) Memories all busy [sic] that they are ~~ship~~ [] into the theater light up the feel, sight, sense of something ~~that~~ them to link, to reality out of? And thanks to so wonderfully much that we have of beauty, skill and knowledge, all those magical times will not fade.

There is so much to show you here - and the hardship is to know what to select to cram into - if you do not call us, I will telephone [I must name your number] and make plans, and it just now there is time to — up here - where spring is only just beginning against the — type onslaught of snow, wet, chill and slush. Above all, huge thanks for your great kindness to us and we long to see you over here pretty soon?

Thanks and good traveling
Humphrey
