Dear Scott,

I am so pleased I've had a chance to do something for you two guys. Naturally I will always be looking for Stuart on the opening of dove season, but I am so glad that you are still here to carry on. You two have always meant a great deal to me as I feel you both have played an important part in my life.

Your letter to me was fantastically beautiful. I will never be able to thank you enough for it. I shall treasure it forever.

If ever you need me for anything, always know I will be there.

With great affection,

Harry
