Dear Ted,

Here is the list with photos of all the Gentling Paintings currently at Gerald Peters Gallery in Santa Fe, NM.

All the paintings are water colors and are framed. The sizes given are those of the picture's unframed measurements.

The two accompanying receipts account for all the works but one: The Orono's Neck Seascape which I sent to Peters Gallery via U.S. about 3 years ago. It was shipped by itself. I probably have a receipt, but I will have to dig for it.

Also, they have a very important black note book containing color photos of our work that will be very helpful to you at your gallery. It cost me a fortune to put together and since they won't be needing it we might as well get it back.

Ted, let me know if there are any problems. If I can be of any further help, please call me at any time.
