Dear Stuart,

Thank you for the letter with all the valuable information about UT Press and other developments. I am thrilled, and want you to know how proud and happy I am for Scott and you.

Of course, I am excited about the prospect of contributing to the UT monograph. Nothing would please me more. I also am delighted about the potential to promote Scott and you through all these publications and activities.

With all best wishes for the new year and my heartfelt congratulations,
As always, Ted
