Dear Stuart and Scott,

I was most surprised and immensely pleased with your elephant folio, "Of Birds and Texas." It was a generous gesture, heartily appreciated, and will be treasured.

I enjoyed seeing some of your art in person. The immediate impact is helpful to me and much stronger than what I was picking up in transparencies and photos. We are very intrigued by your work and in the possibility of having it here for a few days for everybody to look at.

We have reached a consensus and definitely want to do some business. I look forward to working out a business relationship with you both.

Sincerely,

Gerald P. Peters
