Dear Scott and Stuart,

I wanted to take this opportunity to write to the both of you announcing that the new Gerald Peters Gallery is currently under construction. Our new location on Paseo de Peralta between Acequia Madre and Canyon Road will have 32,000 square feet of galleries, offices, and storage space. The building will include an expansive 80 by 30-foot contemporary gallery, and galleries specifically designed for Western, Southwestern, and classic Modernist art, as well as a sculpture room and garden.

We expect that the gallery will open its doors to the public in August of 1998, and an extensive and innovative exhibition is being planned to mark the event. Although we have four of Stuart's works in the gallery, I would like to request you both participate in this debut exhibition. Specifically, we would like to have two major examples of recent work on hand for this show. We are very encouraged about the future of the art market and excited about the incredible new gallery space which allows us to add to our already impressive roster of contemporary artists. We have been anticipating this gallery for many years, and it would be an honor to include the two of you in a very prestigious group of artists who will be taking part in this inaugural event.

Please contact us soon to let us know if the two of you will be able to participate in this exhibition. We look forward to working with you both and to seeing your work on display at the new Peters Gallery.

Sincerely,

Baird W. Ryan
