Dear Stuart,

I have inscribed a book for you, but what about your brother Scott? Would he like his own copy?...?

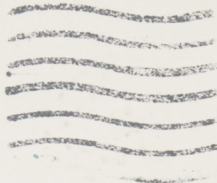

I was quite overwhelmed by your call. The thought of owning your magnum opus is dizzying. Maybe you are rash, in this? If, I shall

understand.

I find that the indexer omitted the Boat-tailed Grackle, so I have inserted it, with paging. She is the one who put in the wrong *Gymfalcus*, instead of the superb winter phase. How right you were to do without so-called 'editors'!

The very best,
Alice
