Dear Ralph:

As per our telephone conversation this morning I submit the following estimate as to the paymnts which will be needed after the outstanding invoice of \$30,350 which remains on my last invoice of October 1, 1985.

After that, the PRINTING PAYMENT SCHEDULE WILL BE...

\$10,000 per week for the next 9 weeks equaling \$90,000 due on work to be done. This would be a weekly draw. This price is based on a minimum of time and expense involved with corrections in the Monotype composition/or time and difficulties with separations.

Sincerely,

David Holman
