Dear Stuart:

I'm sorry to have to call upon your assistance, but I have exhausted all attempts to find or converse with Ralph. I had always heard he was slippery; but now I too have experienced his disappearance.

In early August 1990, Texas Security Bancshares purchased #352 Of Birds and Texas from Ralph. We were planning to use many of the prints (ultimately all) to decorate our offices. To date, we have received only the attached list of prints (19). In our original arrangement with Ralph, we were to receive three additional framed prints and then the remainder of the prints in the book. As of this date we have not received these additional prints or the remainder of the book.

At his request, I advanced Ralph (I'm such a gullable guy!!) the cost of the framing. Unfortunately, he did not reciprocate by advancing the cost of the framing to Tina at the Frame-Up, so in order to acquire the last six (6) prints and frames, I had to pay Tina. Thus Ralph has absconded with my money, my remaining prints and my respect.

Stuart, I am sorry to drag you into this, but at the very least I hope you can assist me in obtaining the remaining prints in the book. Thanks, and call if this is confusing or I can do anything further to assist.

Cordially,

JAT/smr
