Dear Ms. Pate:

Excellent! Your profile was right on target in conveying the artists' dedication and attitude toward the mammoth undertaking. So much information in such a limited space is a compliment to your ability to distill the facts.

I understand new management has taken over the magazine.

I hope that you are on solid ground. It was a pleasure working with you, and I hope another opportunity presents itself. Please do consider me a source, should you relocate.

And be assured that Scott and Stuart are quite pleased with the coverage.

Warm regards,

Preston F. Kirk, APR
