Of Birds and Texas: an encore exhibition of the Gentling bird paintings, accompanied by selected, signed, hand-colored prints by the late Rex Brasher.

The Museum is currently accepting contributions in its drive to acquire all forty of the Gentling dry-brush watercolors for the permanent collection.

The Brasher bird prints, excerpted from the limited edition folio, *The Birds of North America*, are being exhibited for the first time in Texas. The complete Brasher folio was donated to the Museum by Ruth Carter Stevenson.

Scott and Stuart Gentling will be present to sign limited edition posters which may be purchased at the reception.
