

2 October 1989

Dear Mallie -

How was France?! I am sending along Xerox of letters from R. Robinson and Don Otto answering my September 16th letter. Ralph told me that you thought I was perhaps a little tough in my answer to Mr. Robinson. I am more philosophical now for some reason or other. I've done all I can do. Let's just see what happens.

I want to thank you very much for the part you have played in bring the Genting Collection to the Board's notice again. Frankly, I think you have also done about everything possible. You will never know how much I appreciate your help.

By the way - I am Chairman of the Educational Committee for the zoo's new building program for an educational center. Ramona Barr asked me if you might help us - especially in searching for a good architect for the art museum as well as the educational building. She really liked the design of your Ranch house at Volpurg^{SP?} and would like to contact him. So do I... Could you help our Committee in an advisory capacity? I'll talk to you soon. Best -
Stuart
