

Of Birds and Texas, Audubon and Us

Dedication

Short, new. Not the original. In its original form, it's repetitious with the "Audubon and Us" essay.

Acknowledgments

Introduction

Original, edited to put the folio edition in the past tense. Cut the third and fourth paragraphs from the end (those beginning "Nearly twenty years ago . . ." and "It may seem odd . . ."). Pick up at "There is no doubt . . ." The last two paragraphs provide a natural lead in to the new essay.

Audubon and Us

In it's entirety, edited to get rid of repetitious material found in the introduction and to clearly explain early on what the original folio edition was and what it looked like. (Attached is my edited version of the first page.)
