

28 May '99

Dear Catherine,

I know that I have been
hard to get a hold of for the last
month or so. It is true - I have been
sick and I have also been frantically
trying to finish my mural for the Boss
Huck and Dorothy and have kept my
alarm turned off. To make things now
complicated there are three of four building
projects in our neighborhood resulting in
our electricity being turned off from time
to time - playing havoc with my answering
machine by cancelling all messages.
