Re: Of Birds and Trees

Stuart

I got the photographs! Wow, I could barely give them up—George and I were still looking at them at 11pm.

But I did part with them this morning. Did an inventory, wrote a note to Theresa about the duplicate slides and substitute plates 77 and 78 (Fox Sparrow!), and sent them to the press via George who just happened to be taking another project in.

Next, you will hear sometime this summer from either Carolyn Wylie or Leslie Tingle regarding the copyediting schedule.

That's all for now. This is going to be a wonderful, wonderful book.
