Dear Stuart and Scott,

What a wonderful surprise. Having spent the past few days in and around the Grand Canyon enjoying the diverse bird population in the national forest, finding your revised edition *Of Birds and Texas* upon my return was a real treat. It is beautifully realized, and yes, a bit more user friendly than the original folio. *Of Birds and Texas* will adorn our coffee table for many years to come, free to be enjoyed over and over. Thank you for your thoughtfulness.

We at the Fort Worth Museum of Science and History are indeed proud to house your forty original bird paintings in the permanent collection. It is our hope that our expanded facility will include a secure gallery space where we may properly exhibit the collection often for all to enjoy.

Thank you for your kind words and for your great work. You continue to make Fort Worth proud.

Sincerely,

Donald R. Otto
President
