Asesoría, Gestión y Promoción Cultural

Sunday 24th of October

Dear Stuart

Great, really, the slides you will send to us will be vital for the movie Project, thank you!

We are just filming now, and all the slides will be very useful (interior views of buildings, houses, etc, exterior views, aerial views, panoramic, etc.), whatever would be the sizes.

And for what you say to me about to send a copy of Kevin Costner' movie part Aztecs and of the other movie you told me about BCS o something like that, if you are able to send it, well, of course it would be great!

We will scan what you send to us, and send it back to you (of course in special post like DHL, Fedex or UPS) very quickly (the same week we have it), we promise.

I haven't yet spoken to Carmen Parra, but it's a big friend of Conrado Tostado, the friend of us who lend your books to us.

Of course, you will be totally credited in the movie, and this movie will be in permanent exhibition in the Templo Mayor Museum, and please, let's try you two to come in January (you and your brother), for the official inauguration (we will invite you, of course, ticket plane and your time here).

The address to send the material is:
