

If an observer were to place  
a time lapse ~~movie~~ motion  
picture camera on the ~~great~~  
divine brazier of Huitzilopochtli  
and point it directly north on  
a clear <sup>evening</sup> ~~night~~. It would  
record the great ~~revolutions~~ revolutions of the  
stars around a fixed point  
just above the Temple of Cihuacote

tooth pile
