Mexico City, Junio 25 de 1990.

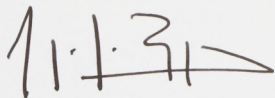

MM. Scott and Stuart Gentling,
Fort Worth, Texas.

Dear Scott and Stuart:

I must apologize for not writing before. My schedule has been rather hectic and has included a lot of travelling.

All my friends here are fascinated both with the beautiful book on Texan birds and your work about Tenochtitlan. Manuel Serrano, our number one curator, is restoring a mansion next to the Cathedral and the Templo Mayor, that will house an art gallery. He suggests that for the opening towards the end of 1991, exhibiting your reconstruction of the Aztec capital would be a great artistic occasion. Would you be interested? Kindly let me know.

Very cordially,
